UPDATE CHINO CREEK BRIDGE PROJECT

San Bernardino - The California Department of Transportation (Caltrans) advises motorists to be aware of portable message signs located on State Route 71 near the Prado Park area to update the detour conditions. These signs will help guide you through the construction area of the Chino Creek Bridge.

Motorists are advised that State Route 83 (Euclid Avenue) is open to local traffic and businesses only from SR71 to Pomona Rincon Rd. All other motorists are to use Central Ave.

Caltrans' contractor, MCM Construction, will observe an environmentally sensitive area component of this project, which protects the Least Bell's Vireo and critical habitat from construction activities during their nesting season. This occurs between Feb. 15 through Sept. 1. No pile driving will be allowed during this time. The contractor will implement a temporary creek diversion system during the nesting season.

Caltrans would like to thank motorists for their patience during this construction project and remind drivers to **SLOW FOR THE CONE ZONE.**
